

March 15, 1976

Dr. Ron Dinas
Institute of Forest Genetics
P.O. Box 2008
Evergreen Station, Gulfport, Mississippi 39501

Dear Dr. Dinas:

Mr. Don Pomerening has assured us that the three sycamore "Moon" seedlings for New York will be available for shipment after April 30, 1976.

Therefore, in order to arrange shipping payment and an air freight schedule, would you please advise us as to an appropriate date? We would appreciate it if arrangements could be made for shipping during the first week of May.

Sincerely,

Barton E. Zeh, Principal Forester
Bureau of State and Private Forestry
