

BT Source History: Original seed Lot-X was sent to NASA 1/15/71.
Seeds returned to IFG received 7/25/72. Seeds germinated and assigned
seed Lot-AI. Cuttings were taken from seedlings and rooted. Assigned Lot-AJ.
Records indicate that 9 seedlings from Lot-AI were sent to Ron Adams,
State Forester and 2 ramets from Lot-AJ on 4/2/76.
It is not known if the Capitol tree is a seedling or clone. Either way,
it originated from Seed Lot-X collected near Soquel, CA in 1966 by Carl Fowler.
